5. [REDACTED] LIAISON Mike Hershman, on the staff of the Subcommittee on International Organizations, House Committee on International Relations, called me in response to Robert Boettcher's, Chief Counsel, call requesting a briefing of the Subcommittee on North Korean intelligence activities in South Korea, Japan and the United States. The Subcommittee had made a similar request to the FBI to cover the U.S. phase of the briefing. Hershman said that he had discussed this matter with Mr. Cary, Legislative Counsel, and understood that the briefing was off in view of the stand down. He added that we had discussed this with Mr. Boettcher and I need not call Boettcher back.

6. [REDACTED] LIAISON Spoke to Danny Coulson, FBI, regarding Representative Robert Carr's (D., Mich.) interest in the case of [REDACTED]. Coulson indicated he would not be able to work with Representative Carr as a Congressman but could if it was a Committee matter.

7. [REDACTED] BRIEFING Had breakfast with Representative Robert Carr (D., Mich.) in my office, along with [REDACTED] Chief, [REDACTED] NE/DDO, and covered all of his interests as they relate to the PLFP. [REDACTED] gave an excellent presentation. I also provided the Congressman with our published reports on terrorism and again told him that he should go to the FBI since they had relevant material and recommended that he do it as committee matter, either via the House Armed Services Subcommittee on Intelligence and Military Application of Nuclear Energy or the House Permanent Select Committee on Intelligence, the latter being preferable. [REDACTED]

[REDACTED] referred Mr. Carr to the FBI and he said he recognized our targetting does not cover the U.S. but he said he was not interested in information developed only within the U.S., but thought we might have picked up something abroad. In that case, I said we would have provided it to the FBI and any Member who was targetted, but that I would check.

Later that night, I relayed to Mr. Carr that we had not yet uncovered any such information and we were continuing our check but that from what I learned the probable answer will be negative.
